PROFESSIONAL SUMMARY

A passionate and driven software developer with 2 years of experience in building cross-platform applications using Flutter and NodeJS. Proficient in Python, SQL and R for data analysis, with a strong focus on deriving actionable insights. Known for strong problem-solving abilities, a keen eye for detail and a commitment to continuous improvement.

EDUCATION

Jul 2020 - Nov 2022	Bachelor of Computer Science in Data Science Monash University, Malaysia <ul style="list-style-type: none">Transferred from University of Melbourne after completing the first yearGrade Point Average (GPA): 3.647 / 4.0
Jul 2019 - Jun 2020	Bachelor of Science The University of Melbourne, Australia <ul style="list-style-type: none">Completed first-year courseworkWeighted Average Mark (WAM): 82 / 100Transferred to Monash University

WORK EXPERIENCE

Apr 2023 - Present	Software Developer Mlion Corporation Pte Ltd, Singapore <ul style="list-style-type: none">Developed GoBendid, a tablet app designed to digitise operations for the company's pipe bending factory in the Philippines, aimed at improving business processes across multiple functions.Designed and implemented CRUD modules in the app to assist managers in handling customers, suppliers, sales orders, purchase orders, deliveries, inventories, facilities and employees.Designed and implemented the Operations Management module, the core feature of the app, enabling factory floor operators to view assigned tasks, update work progress, and adhere to SOPs via tablets.In the initial stage of the project, implemented the frontend using Flutter and the backend with NodeJS. Later, transitioned the backend to leverage Odoo's external API for enhanced functionality, scalability and flexibility.At the end of each 3-week sprint, conducted thorough testing of the app and deployed the iOS tablet app to TestFlight.
Nov 2021 - Feb 2022	Data Scientist Intern Pengurusan Air Selangor, Malaysia <ul style="list-style-type: none">Supported immediate supervisor in various data science projects under his charge.Assisted in data cleaning and preparation.Performed exploratory data analysis (EDA) using PySpark in Azure Databricks to discover patterns and spot anomalies.Researched and identified potential models and algorithms for specific problems.
